BIS, HQ

Our Ref: Registration/G-18   **15 05 2019**

Subject: SMART Registration

A seminar on SMART Registration was organized by BIS on 3rd April 2019. The seminar was attended by representatives from MeitY, Industry associations, BIS recognized laboratories, licensees and Authorized Indian Representatives. Mobile app for CRS and introduction of SMART registration were launched in the seminar.

SMART Registration marks re-engineering of the processes.

In the revamped process, applicants need to generate a 'Test Request' from CRS website for getting their product tested from BIS recognized laboratories. Laboratories will be able to accept samples for testing only when accompanied with Test Request. After completion of testing, BIS recognized laboratories would be able to upload the Test report on CRS website through their login.

The uploaded test report will be made available to BIS once, an application/inclusion etc. is submitted online using the test report. BIS will not seek hard copy of test reports uploaded on the portal.

Most of the BIS recognized labs have registered themselves on CRS website, whereas the processing of others is underway.

Following timelines are informed in this regard:

Sl. No.	Activity	Last Date
1.	Last date for registration by BIS recognized labs on SMART registration portal	17 May 2019
2.	Opening of SMART Registration (Online Test Request generation for submitting sample to BIS recognized labs)	20 May 2019

Timelines for subsequent milestones will be announced shortly.

                                                                                                                Sd/-
                                                                                                    Nishat S. Haque
                                                                                                 Head(Registration)
