30 07 2021

Subject: Integration of LIMS with CRS website

1. BIS had developed and launched a portal namely **Laboratory Information Management System (LIMS)** (<https://lims.bis.gov.in/>) for managing its laboratory related activities including audits of new/recognized labs in January 2021.
2. The CRS portal of BIS (<https://www.crsbis.in/BIS/>), has been integrated with the LIMS portal to streamline the entire process and make it more efficient.
3. There will be no change through in the procedure for generation of new test requests by applicants/licensees.
4. The new test requests generated from the CRS portal from 29.07.2021 will be available to BIS recognized Laboratories on LIMS. **However, for the samples already received through CRS portal, the laboratories will have to upload the test reports on CRS portal itself (and not on LIMS).**
5. Any hiccup/problem faced while operating the portals may please be brought to the notice of Registration Department through phone (011-23230856) or e-mail (registration@bis.gov.in).
6. Circulated for information of all applicants, licensees and BIS recognized laboratories.
